

**CONVERT TOOLS for LT SHOW FILES**  
[www.lt-light.com](http://www.lt-light.com)

LT has several tools to translate (to convert) LT shows:

Tool name	Source Show File	Target Show File
Convert120.exe	Hydra Scan Hydra Compact & Hydra Stage (Versions > 1.43)	Hydra Plus (version 1.41)
LTShows100.exe	Hydra Plus Hydra Space Hydra Sky Hydra Spirit (versions > 1.41)  Piccolo Piccolo Scan (All versions)	Hydra Plus Hydra Space (version 3.00)  Piccolo Piccolo Scan (version 1.70)

\* Shows of Hydra Plus, Space, Sky & spirit are compatibles  
\* If you find same problem reading a Show of Hydra Plus 1.41 in a current version, please, open this show with Plus version 1.42 wole (wolePlus142) and store it in this version.

From LT, we have tried maintain the integrity of show data

Please, take special care with the macros execution of converted shows

**CONVERT120 - scan/stage/compact to plus**

**INSTALLATION**

---

This software must be installed into a PC/windowsXP

Unzip Converters.zip file into a folder, in your hard disk (you can use any localization)

Software ConvertXXX (XXX is the version) is ready to execute it, this tools doesn't need installation process.

## Instructions to use ConvertXXX.exe

---

Open the folder over Converts.zip file has been unzipped

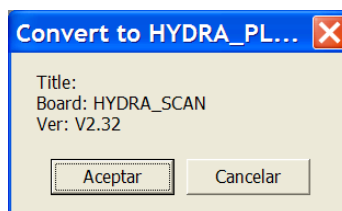

Please, **do a copy of show** of Hydra Scan, Compact o Stage which you want to convert, in this (or in other) folder (Please, for security, use always copies).

Double click on ConvertXXX.exe

### Select File/Convert F2

From the files selection windows, select the show for conversion. Press "Open"

An information screen appears showing us the basic data of this show. To convert it, press "Accept"

Enter a name and localization for the new file (target show) and press "Store"

Repeat this process as many times as files you want to convert.

### Plus shows will have version 1.41

The conversion in invert direction is not possible. A Hydra Plus show cannot be converted to Hydra Scan/Compact/Stage.

Don't forget to copy this converted show into a SHOWS folder, in a floppy disk or USB stick

## Versions

---

- Convert110: First version, available from June of 2005.
- Convert110: Solves the conversion of shows with gobo & color libraries.
- Convert120: Solves the conversion of shows with the spot patch empty.

## LTSHOWS100 – Space, Sky, Spirit, Plus, Piccolo & Piccolo Scan

### INSTALLATION

---

This software must be installed into a PC/windowsXP

Unzip Converters.zip file into a folder, in your hard disk (you can use any localization)

Software LTShowsXXX (XXX is the version) is ready to execute it, this tools doesn't need installation process.

### Instructions to use LTShowsXXX.exe

---

Open the folder over Converts.zip file has been unzipped

Please, **do a copy of show** of Hydra Scan, Compact o Stage which you want to convert, in this (or in other) folder (Please, for security, use always copies).

Double click on LTShowsXXX.exe

**Select File/Load Show...**

From the files selection windows, select the show for conversion. Press "Open".

Basic data of this show appear in the screen
