

HydraXPPC Update 1.20 --> 1.30

Version: 1.20 to 1.30

Date: 11.1.2007

IMPORTANT!

Model/ software version	Software version of remote control in PDA
Only for Plus / version 1.26	HydraPlusPPC101 or HydraPlusPPC110
All the models / From version 2.12	HydraXPPC120
All the models / From version 2.40	HydraXPPC130

SOFTWARE INSTALLATION FROM STORAGE CARD OR FROM THE DEVICE

HydraXPPC folder (supplied by the provider or from Internet) has the next files:

1. _ReadmeSD.txt
2. HydraPlusPPC.dat (Key. If you don't have this file, must be requesting it to your provider) it's important to have a security copy of this file.
3. SoftXXX.CAB (Installer of the remote control software, HydraXPPC, where xxx is the version number)
4. ManualxxxEs.CAB (Installer of the manual for the PDA, where xxx is the version number)
5. PocketXPDFxxx.CAB (Freeware software that allows to you read pdf files into the PDA, files as the previous manual)

This software, usually, is in your Storage Card. If you have updated it from Internet, it must be copied to your Storage Card or device, using your ActiveSync application.

We recommend using the Storage Card, usefull besides as Backup.

INSTALLATION PROCCES

1. Access to the HydraXPPC folder, usually in your Storage Card, using the File Explorer.
2. Open HydraXPPC folder.
3. Execute SoftXXX.CAB and follow the instructions. We recommend installing the program in the Device.
4. Copy HydraPlusPPC.dat file (key) in folder: My Device/LT
5. If you want the manual in the PDA, execute ManualXXXEs.CAB
6. Optionally, if your PDA hasn't other software to read pdf files, execute PocketXPDFxxx.CAB

Direct accesses will be created in the Start menu, if possible, for all these applications. The Start menu is configured in Start/Settings/Menus.

NEW

FUNCTION NAME CHANGE

With the objective to do compatible this remote control with the new version 2.40 of the Hydra family consoles, the name of some functions has been changed:

MEM	is replaced with	CUE
SPOT	is replaced with	FIXT
FIGURE	is replaced with	SHAPE

IMPROVEMENTS

SOFTWARE DISTRIBUTION

From this version, an applications *.CAB have been created to install automatically the software & its user manual. The _ReadmeSD.txt file and this document have instruction about the use of the *.CAB tools.
